It is our privilege to share with you, our generous supporters, the 2015 ORT America Annual Report.

As the leading funders of ORT programs around the world, we ORTists here in America take pride in the difference we make in the lives of our students. Over 300,000 students throughout the world benefit from an ORT education.

We have had the opportunity over our years of involvement with this wonderful organization to visit schools, see the programs and most importantly, meet the students and dedicated educators.

A couple of examples of our philanthropic dollars at work allows for greater appreciation of the critical role ORT plays: In Israel, youth at risk living in the periphery are given education and training to compete in a hi-tech world. In the former Soviet Union, ORT is a beacon for Jewish students, providing STEM* education along with a Jewish curriculum and activities.

We are delighted to share our accomplishments with you. Together we will meet the challenges and seize the opportunities.

Thank you for your partnership and generosity.

---

Students discussing their studies in Hodayot youth village in Israel, where their school is part of the Kadima Mada educational network.
What a year it has been! ORT America has been forging ahead to streamline operations, focus on growth and create a more successful fundraising campaign. Since the 1880s ORT has been the greatest non-profit educational system in the world, giving Jews and non-Jews a better future through job training. Millions of lives have been improved through ORT efforts, and ORT America has developed a bold plan using 21st century tools to more effectively reach donors to increase fundraising to meet the ever-growing needs of our students in Israel, in the former Soviet Union and in other parts of the world.

In Israel we help disadvantaged youth in peripheral areas of the country obtain a solid education, and in three technological colleges we offer training for young adults to obtain knowledge and skills for career success. In the former Soviet Union, ORT STEM* instruction and Jewish studies offer thousands of students unparalleled educational advancement.

I am proud to lead the team of ORT America staff who raise funds for this worthy organization. ORT was there to help in the struggles of the past, and ORT will be there to help as Jews around the world face the challenges of this century. Thank you for your generous support and for making a difference in the lives of those who need it most. Together we can go forward to a brighter future for the Jewish people.

*Science, technology, engineering and math
**We Enrich, Enable and Embolden**

**OUR EDUCATIONAL INITIATIVES**

**IN ISRAEL**

**Teens Benefit in Hodayot Youth Village**

Most of the 250 students in Hodayot Youth Village come from families ranking low on the socio-economic scale, from disadvantaged backgrounds, and many are immigrants. Thanks to ORT programs, these youth progress and learn how to integrate into society when they leave the village. A group of teens who benefit from ORT opportunities discuss the strengths of their experience in Hodayot.

**YURI**

“I wasn’t learning before. But here, teachers helped me learn everything very well – they added value to every single thing. Our teachers help you more than 100% and regard you as family. We get everything we need for the rest of our lives.”

**RIVKA**

“We’re taught respect – and that doing is not enough, we must give with a full heart.”

**DANY**

“At this school we’re taught to respect one another. And if we try hard and put forth the effort, we can get help. I have also learned about the importance of keeping my individuality.”

**NOAM**

“Teachers give good explanations. If I need more help, there is always the opportunity. The school teaches about love and warmth.”

**JOSEPH**

“The teachers and the surroundings give us what we need. We’re taught to accept others, and to reject racism.”

**AVRAHAM**

“I really like the variety of studies. This is just one of three high schools offering the police study track, and very few have our computer courses. We’re taught patience and acceptance, and I learned that not everyone is racist.”

**HELP THOUSANDS WORLDWIDE**

**We Enrich, Enable and Embolden**

**OUR EDUCATIONAL INITIATIVES**
Two Majors Can Lead to One Great Profession

Ben is a first-year student in both practical mechanical engineering and the natural gas study track at Beersheva Technological College, part of the Kadima Mada College Network. He is certain that all big companies in Israel will use natural gas in their facilities, and there will be a great demand for members of this profession. Ben plans to stay in the area “to continue Ben Gurion’s vision to develop the Negev.”

A Future Learning Space for the Present

Tuyyahu High School in Beersheva is the site of the first Kadima Mada Future Learning Space. Ayelet is a teacher who uses this brand new classroom. Two hundred of these state-of-the-art classrooms are envisioned to be situated throughout the country, particularly in high-need, under-resourced peripheral areas.

Enhancing the Educator Experience

Grigory Vodopian is the vice-principal at the ORT de Gunzburg School in St. Petersburg, Russia, the flagship enterprise of sixteen ORT day schools in the former Soviet Union.

“I’m going to be a public relations manager, so I enrolled in a Photoshop course at the ORT St. Petersburg Training Center. I really liked the classroom atmosphere, the attentive, competent teacher and the in-depth, well-structured syllabus. I finished the course and my project on banner design qualified for the final round at the university competition. I will be representing my university at the city competition – my first victory, thanks to ORT.”

Supplemental Career Training Fosters Excellence

Anya Botvinnick is in her last year at St. Petersburg Academic University. The ORT St. Petersburg Training Center offers qualification upgrades for staff of Jewish community organizations, and classes for St. Petersburg yeshiva students will begin as part of a new initiative to serve the community.

“The instructors help us a lot, especially in physics. I tried to study physics in high school and couldn’t, but here I can, because the instruction is so good. Every day I learn something new. I believe Kadima Mada gives it all – and I believe there will be more laboratories and double the students because of industry demands.”

“This Future Learning Space was a vision the school had with the municipality of Beersheva before Kadima Mada involvement, and it’s like a dream come true! For teachers it takes longer to prepare a lesson here, but students understand it much better. I have more of a “guide” role than a “teacher” role to show students how they can learn, and they enjoy the flexible environment. We would love to have more than just the one space.”

“With ORT support I designed a computer project that led to our school becoming a leading secondary education institution in terms of information and communications technology (ICT). Thanks to ORT support for teachers, I took part in international seminars to learn about innovative pedagogical developments. Our teachers and I help our school stay highly competitive to attract new applicants interested in high-level education in the framework of a modern Jewish school.”
WHY ORT?

ORT was founded in St. Petersburg, Russia in 1880, dedicated to its mission to save lives and repair the world through education. Since its establishment, millions of individuals have benefited from their ORT education.

World ORT, through its partnerships across the globe, comprises the largest non-governmental non-profit educational enterprise in the world. ORT programs focus on STEM (science, technology, engineering and math) education, and the organization provides state-of-the-art facilities, equipment and materials to enhance the operations of many partner and affiliated educational institutions that offer computer technology, robotics, biotechnology, physics, multimedia, environmental design, architecture and more. In addition to programs for students, ORT provides robust components for the training of teachers, for infrastructure development and pedagogical assessment.

In many countries, ORT provides the template for government officials to shape their national educational systems, and in others, ORT schools are the most prestigious, offering a substantive STEM curriculum paired with humanistic values and Jewish studies.

ORT success is anchored in its Jewish roots, in the principle of tikun olam – repairing the world through acts of kindness and generosity, in Maimonides’ eight levels of charity, and in the rich history of the Jewish people. Although students and teachers in ORT schools come from different backgrounds, they all have respect for diversity at their core.

ORTH America supports these institutions in the United States:

UNITED STATES ORT OPERATIONS

BRAMSON ORT COLLEGE in Queens and Brooklyn, NY served refugees and immigrants during World War II, becoming a college in 1977 to provide quality technical education with programs in accounting, business management, computer information systems, electronics technology, office technology, renewable energy and other study tracks. (bramsonort.edu)

LOS ANGELES ORT COLLEGE, established in 1985, provides quality instruction in business, medical and computer technology areas as well as English language skills, and it is the only Jewish-sponsored technical college on the West Coast. (laort.edu)

For over two decades, CHICAGO ORT TECHNICAL INSTITUTE in Skokie, IL has prepared adults for careers with quality courses in technical, business, health care and English-as-a-second-language (ESL) study tracks. (ortchicagotech.edu)

Named for a president of ORT America who also served as president of World ORT, the DAVID B. HERMELIN ORT RESOURCE CENTER in West Bloomfield, MI offers training for adults to acquire computer skills necessary in today’s high-tech society.

Caption

MOVING FORWARD:
OUR FUNDRAISING PRIORITIES

These operations rely on contributions to further their programs are the focus of ORT America fundraising activities.

IN ISRAEL

World ORT Kadima Mada (Science Journey) enhances education through its programs in 200 affiliated schools and within 25 hospitals, with a focus on STEM instruction (science, technology, engineering and math) and humanistic values.

THE EDUCATIONAL NETWORK encompasses schools in the periphery of Israel and include Kfar Hassidim and Hodayot youth villages, Yeshiva Abir Yaakov and the Levinson and Rabin schools in Kiryat Yam, where students come from challenging backgrounds and benefit from programs to improve their academic standing. Kfar Silver was just added to this network.

THE TECHNICAL COLLEGES NETWORK

Institutions in Beersheva, Tel Hai, Shlomo and at Lake Kinneret offer tracks in practical engineering, natural gas certification and other disciplines that give students hands-on training and skills for careers in high-tech industries.

FUTURE LEARNING SPACES

The installation of 200 of these state-of-the-art learning rooms across the country, particularly in disadvantaged areas, is envisioned. With large screens, computers, 3D printers and a flexible environment, students advance through collegial interaction and self-learning.

YOUUniversity

This after-school initiative offers courses in science, technology, engineering, math and robotics. Collaborative instruction, interesting projects, competitions and accessibility make YOUUniversity a popular program.

PEDAGOGICAL INNOVATION THROUGH RESEARCH AND DEVELOPMENT

This division manages the genesis and implementation of innovative programs that change the long-term educational landscape in Israel.

IN THE FORMER SOVIET UNION

World ORT re-created a dynamic educational network across 10 states and 40 cities, serving more than 28,000 citizens, after the collapse of the Soviet Union in 1991. Sixteen ORT Jewish day schools provide outstanding STEM and Jewish studies instruction. ORT programs in the FSU advance education, build Jewish identity, and help thousands obtain skills for meaningful careers.

THE DE GUNZBURG SCHOOL IN ST. PETERSBURG, RUSSIA

This ORT flagship institution offers the STEM curriculum with humanistic values and Jewish studies. Several other schools in the World ORT network are in need of funds to continue ORT programs: the Kazan ORT Mishpachtenu School, the Zaporozhye ORT Aleph Jewish Gymnasium and the Tallinn ORT Jewish School in Estonia.

THE DE GUNZBURG SCHOOL IN ST. PETERSBURG, RUSSIA

This ORT flagship institution offers the STEM curriculum with humanistic values and Jewish studies. Several other schools in the World ORT network are in need of funds to continue ORT programs: the Kazan ORT Mishpachtenu School, the Zaporozhye ORT Aleph Jewish Gymnasium and the Tallinn ORT Jewish School in Estonia.

THE ORT VOCATIONAL TRAINING CENTER (VTC) in the St. Petersburg Jewish Community Center (YESO) offers educational services to over 100,000 local residents, giving Jewish community members advantages in the workplace.

INTERNATIONAL

ORT Global Networking Programs include student exchanges, competitions, and options for summer school; and professional development seminars for educators.

PAGE 10 | 2015 ORT AMERICA ANNUAL REPORT

PAGE 11
The generosity of donors fulfills crucial needs of World ORT priority projects. 

ORT America Major Gifts Society members have the opportunity to designate a gift at a specific ORT program or facility. Members receive invitations to ORT America events and briefings with top-level officials; are welcomed to ORT America national and local events.

In recognition of those who have been involved with ORT for 25 years or more, this Society includes a large number of members who have been active with ORT for over 50 years and who are proudly recognized at ORT America events and briefings with top-level officials.

In recognition of those who have been active with ORT for over 50 years and who are proudly recognized at ORT America national and local events.

Named for the eight levels of tzedakah identified by 12th-century philosopher Moses Maimonides, this segment of the de Gunzburg Society, for supporters with planned gift endowments of $50,000 or more.

We gratefully recognize these donors, as well as the contributions of those who wish to remain anonymous.
While this list reflects donors at the $500 level and above, we would like to thank all our donors for their ongoing support and a very successful year.

YOU CAN SUPPORT ORT AMERICA

Thanks to the support of donors, ORT initiatives enrich and empower over 300,000 individuals worldwide.

You can make a meaningful difference by contributing in a variety of ways.

Make an immediate donation via ORTamerica.org or by ringing 800-590-7088 or by sending your check to ORT America, 75 Maiden Lane, 10th Floor, New York, NY 10038 or to your local ORT America office.

Set up a recurring gift on ORTamerica.org.

Make a pledge, which allows ORT America to plan for the future. Pledges are due December 31, and can be paid in full, monthly or quarterly.

Establish a Planned Gift: Planned giving vehicles such as annuities, bequests, legacies, charitable trusts and life insurance policy designations are just a few ways to provide a continual income to fund ORT America programs. For more information about Planned Gifts, please contact Marla D. Landis, Chief Development Officer, at 818-865-1802 or by email tomlandis@ORTamerica.org.

Explore a matching gift through your employer: Many companies offer a matching gift program for charitable giving. Please inquire with your human resources department.

Become a corporate sponsor and receive recognition of your company at a local ORT event.

Become Involved! Serve on an event planning committee, participate in local chapter activities, go on an ORT America mission.

We welcome all contributions and appreciate the generosity of our donors.

World ORT is the Jewish organization providing innovative educational programs that enrich, enable and embolden thousands of people across the globe.

In existence since 1880, ORT initiatives take individuals from education to vocation, by providing youth with a path to success and empowering young adults to flourish in meaningful careers. With its optimal teaching environments and quality instruction, ORT prepares students for bright outcomes and shapes the world for a better future, facilitated by ORT America fundraising efforts.
